## The REAL Public Cost of Billion Dollar Stadium

Side 2 of 2

The public has been misled into thinking that Billion Dollar Stadium will only require \$200 million in public money.

That is NOT TRUE! According to the Georgia World Congress Center Authority it will be at least \$882 million. And the City of Atlanta estimates it will be at least \$494 million. Add on \$30 million in tax breaks for construction materials, \$24 million in public land, and \$15 million for community development and that takes the number over **\$500 MILLION (City's estimate) or almost \$1 BILLION (State's estimate) IN PUBLIC MONEY – NOT THE \$200 MILLION THEY HAVE CLAIMED!**

Call Mayor Reed and the Atlanta City Council and tell them to let you vote on Billion Dollar Stadium:
